Dharani Ravva

Graduate

As a recent graduate eager to embark on a career in Java programming, I am excited about the opportunity to join your team as a Java Programmer. With a Bachelor's degree in Electronics and Communication Engineering, I possess a foundational understanding of Java concepts and principles, ready to be honed through practical exposure and hands-on experience.

PERSONAL PROJECTS

Ecommerce website
- The project aims to develop a robust and user-friendly eCommerce platform that allows businesses to showcase and sell their products or services online. The platform will provide a seamless shopping experience for customers, incorporating features such as product browsing, searching, ordering, payment processing, and order management.
- **Project Overview:** The project aims to develop a robust and user-friendly eCommerce platform that allows businesses to showcase and sell their products or services online. The platform will provide a seamless shopping experience for customers, incorporating features such as product browsing, searching, ordering, payment processing, and order management.
- **Technology Stack:** Front-end: HTML, CSS, JavaScript, React.js or Angular.jsBack-end: Node.js, Python (Django or Flask), Ruby on Rails, or PHP (Laravel)Database: MySQL, PostgreSQL, MongoDBPayment Gateway Integration: Stripe, PayPal, Square, etc.Hosting: AWS, Google Cloud Platform, Azure

CERTIFICATES

Full Stack Java Developer Training (02/2023 - 07/2023)
The Full Stack Java Developer training program is designed to equip participants with the skills and knowledge required to build modern web applications using Java-based technologies for both front-end and back-end development. This intensive program covers a wide range of topics, including Java programming, web development frameworks, database management, and deployment strategies. Upon successful completion of the training program, participants may receive a certificate of completion, validating their skills as Full Stack Java Developers.
